SUBJECT INDEX

Adolescents,
smoking, mass-media encouraging personal communication 35
sources of tobacco, Minnesota 45
AIDS,
role of education in preventing transmission of HIV, attitudes, beliefs and behaviour change, a review 273
survey of knowledge, attitudes and risk estimates among Zimbabwean students 285
American Indians,
substance abuse, risk factors, preventive interventions 137
Asthma information,
can it be understood? 377

Black Americans,
smoking cessation initiatives 13
Blood cholesterol,
measurement in the community, participant characteristics by site 399
Breast cancer,
screening utilization by Latina community health centre clients 461
Breast self-examination,
practices and attitudes among breast cancer, benign breast disease and general practice patients 193

Cancer control,
emerging issues 501
Cancer patients,
evaluation of learning resource centre 495
Cardiovascular health,
community-wide youth programme 87
Cervical cancer,
adequacy of screening among inner-city women, results from a defined population 451
Community participation,
a planning method for conceptualizing and assessing potential 305
Condom-use,
prevention of sexually transmitted diseases, relapse behaviour 267
Conjoint analysis,
application in the development of utility-responsive health promotion programmes 439

Data collection,
comparison of telephone versus home interviews 321
Dental health care,
focus for health promotion, community pharmacy practice 181

Employee-wellness,
exercise behaviour initiatives 233
Exercise behaviour,
employee-wellness initiatives 233
factors affecting adoption, sedentary older adults 173

Health information,
perceived reliability of sources 367
sources, media use and knowledge acquisition, Cancer Information Service 419
Health promotion,
application of conjoint analysis in the development of utility-responsive programmes 439
selective research agenda, smoking prevention 5
Heart disease,
beliefs of heredity, relevance of common-sense ideas to preventive measures 329

Learning resource centre,
for cancer patients, evaluation of 495

Mammography,
role of needs assessment in designing a community-based education programme for urban women 459
Mass-media,
encouraging personal communication among adolescents, smoking 35
Multidimensional Desire for Control Scales,
development of, patients' perceptions of their clinical interactions 383

Non-picture visuals,
for communication in health learning manuals, an assessment 297

Physical education,
investigation of psycho-physical influences of a quality daily programme 341

Schools,
smoking prevention programmes 111
two models in smoking prevention 69
Self-efficacy,
validation of a scale to predict smoking among adolescents 351
Self-help programmes,
smoking cessation, cost effectiveness 79
Sexually transmitted diseases,
prevention, relapse behaviour, condom-use 267
Smoking,
behaviours, attitudes in the workplace 245
cessation for cancer patients, rationale and approaches 489
fatalistic attitude to health 361
mass-media encouraging personal communication among adolescents 35
passive, home-based intervention to reduce passive smoking by infants, development and evaluation 225
physicians, cancer control and the treatment of nicotine dependence, defining success 479
prevention curriculum delivery, integrity 59
response to an anti-smoking campaign aimed at mothers with young children 429
validation of a self-efficacy scale to predict smoking among adolescents 351
Smoking cessation,
behavioural intervention studies and epidemiology to improve strategies 145
clinic approach, public service application 103

initiatives, Black Americans 13
self-help programmes, cost effectiveness 79
Smoking prevention,
health promotion, selective research agenda 5
programmes in schools 111
two models in schools 69
Substance abuse,
American Indians, risk factors, preventive interventions 137

Tobacco,
advertising, children, the voluntary agreement 51
first opportunities to use 27
sources of, adolescents, Minnesota 45
Tobacco Reduction and Cancer Control,
the TRACC program, background, structure and interventions 125
Tobacco use,
social influence perspectives on development and prevention 213
Tuberculosis,
knowledge beliefs and feelings 205

Workplace,
smoking behaviours, attitudes 245
